# 1. Financial results for FY2024: Business Performance Highlights

	FY2023	FY2024	(mil. yen)	
			Change	rate
Net sales	541,211	494,746	-46,465	▲8.6%
Operating income	12,453	16,581	+4,128	+33.1%
Ordinary income	15,785	24,403	+8,618	+54.6%
Net income Attributable to Owners of Parent	-20,045	10,277	+30,322	-

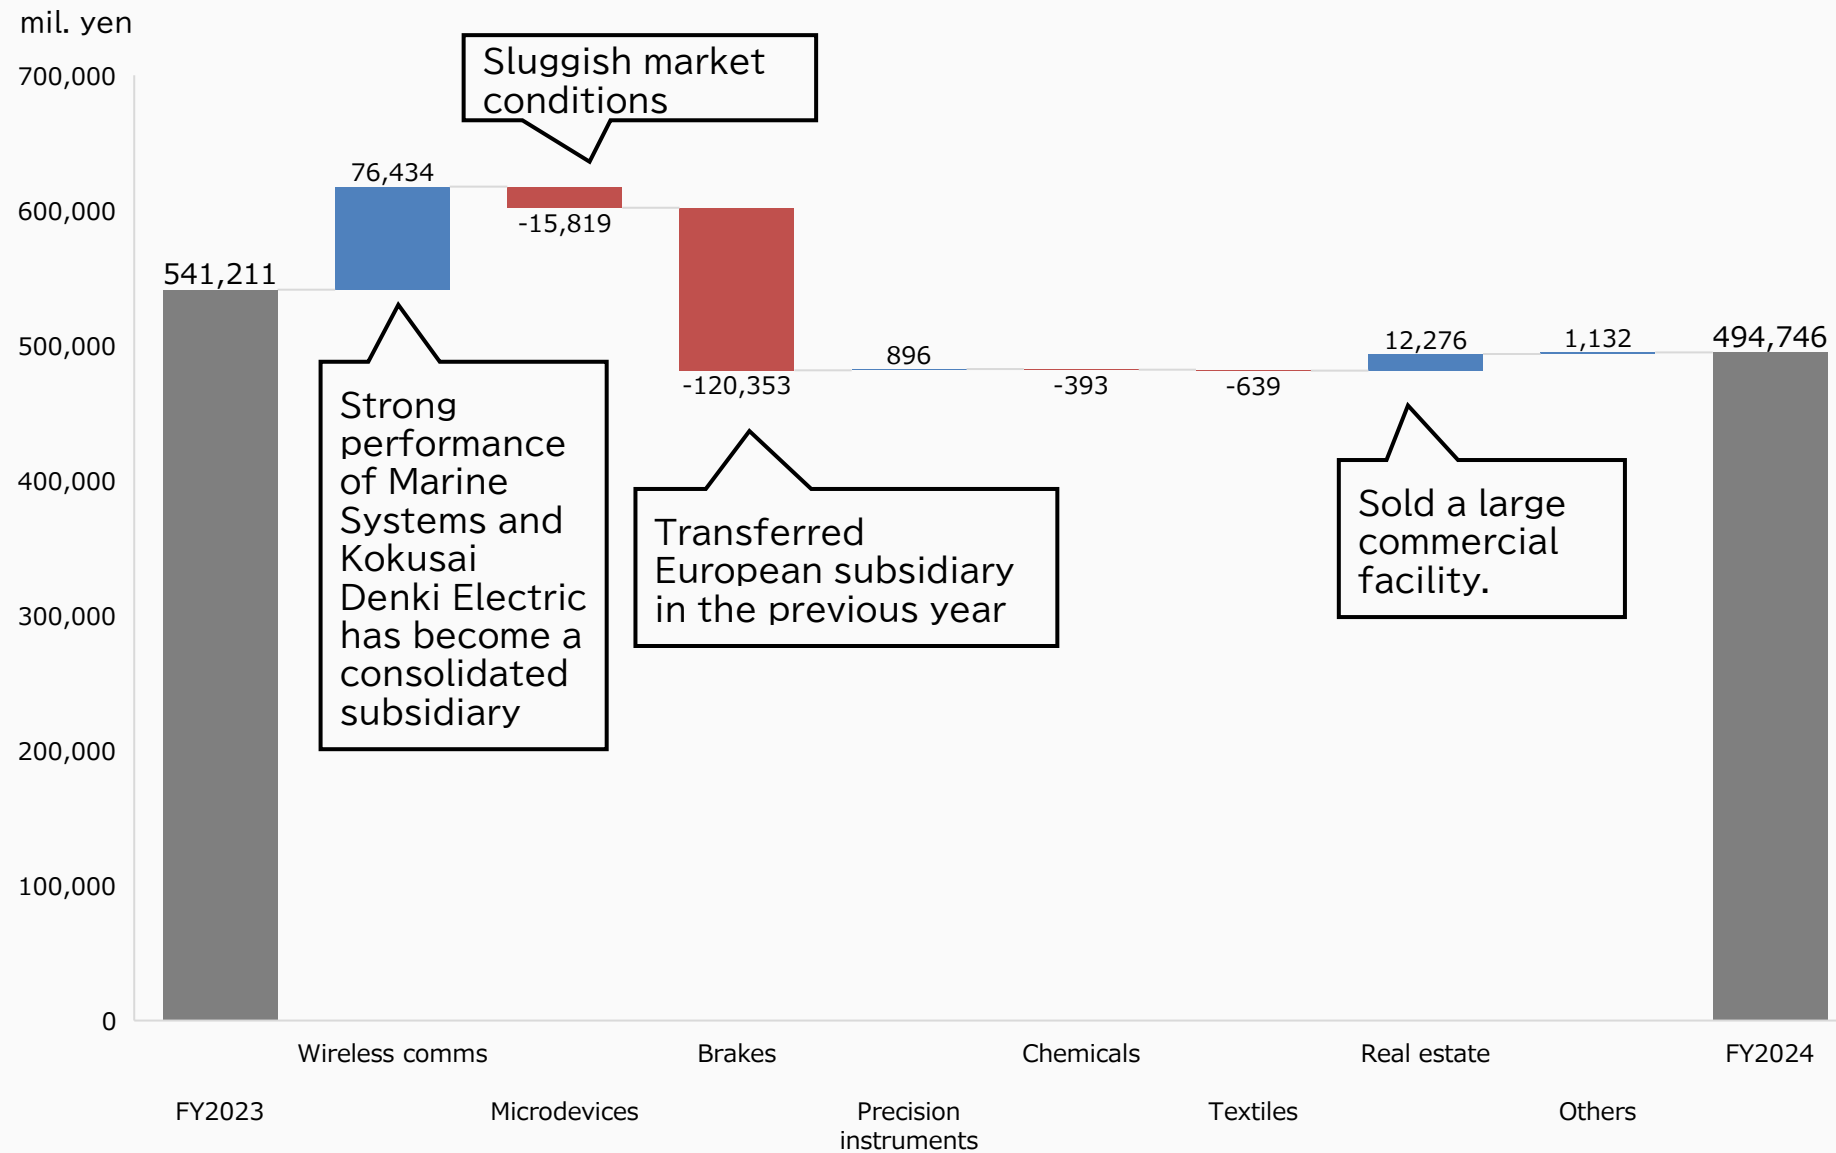

- Net sales: Decreased due to the sale of a brake business subsidiary in the previous fiscal year.
- Operating income: Increased due to the consolidation of KOKUSAI DENKI Electric (KDE) as a subsidiary.
- Net income: Turned profitable due to the absence of the extraordinary loss recorded in the previous fiscal year associated with the sale of a brake business subsidiary.

# 1. Financial results for FY2024 : Segment Results

		(mil. yen)			
		FY2023	FY2024	Change	
					rate
Wireless comms	Net Sales	158,081	234,515	76,434	+48.4%
	OP	4,745	7,577	2,832	+59.7%
Micro devices	Net Sales	80,044	64,225	-15,819	▲19.8%
	OP	934	-7,093	-8,027	-
Materials	Net Sales	280,720	160,231	-120,489	▲42.9%
	OP	6,391	4,822	-1,569	▲24.6%
Brakes	Net Sales	178,541	58,188	-120,353	▲67.4%
	OP	4,682	2,333	-2,349	▲50.2%
Precision instruments	Net Sales	53,265	54,161	896	+1.7%
	OP	1,328	1,641	313	+23.6%
Chemicals	Net Sales	11,433	11,040	-393	▲3.4%
	OP	801	655	-146	▲18.2%
Textiles	Net Sales	37,481	36,842	-639	▲1.7%
	OP	-420	193	613	-

	OP	8,518	17,694	9,176	+107.7%
Others	Net Sales	11,100	12,232	1,132	+10.2%
	OP	-8,137	-6,421	1,716	-
Total	Net Sales	541,211	494,746	-46,465	▲8.6%
	OP	12,453	16,581	4,128	+33.1%

- **Wireless and Communications:** In addition to the strong performance of marine systems and special equipment, sales and profits increased due to the consolidation of Kokusai Electric as a subsidiary.
- **Micro Devices:** Due to worsening market conditions, sales of automotive, industrial and consumer products were all sluggish, resulting in a decline in revenue and a fall into the red.
- **Brakes:** Revenue and profit decreased due to the sale of a European subsidiary in the previous period.
- **Real estate:** Increased revenue and profit due to the sale of large-scale commercial facilities

# 1. Financial results for FY2024 : Factors affecting operating income

# Results for FY2024 and Progress of Medium-Term Strategy

1. Overview of the financial results for FY2024
- 2. Progress of the Medium-Term Management Plan 2026 (Year 1, FY2024)**
3. Outlook for FY2025 and business direction
4. Strategy for the wireless and communications business
5. New R&D structure

Reference materials

A decorative background graphic featuring a network of interconnected nodes and lines. The nodes are represented by small circles in various colors (blue, purple, pink), and the lines are thin, connecting them into a complex web. Overlaid on this network are large, flowing, wavy bands in shades of blue and purple, creating a sense of movement and connectivity. The overall aesthetic is modern and technological.

## 2. Progress of the Medium-Term Management Plan 2026 (Year 1, FY2024)

### Medium-term Management Plan 2026

Laying the foundation for our vision

Since 2027

Transformation of business model and realization of high profitability

what we aim

Creating Value through Connecting Technology  
(Connect Everything, Create Value)

#### priority measures

- 1 **Pursue business portfolio transformation**
  - Accelerate growth centered on wireless and telecommunications/microdevices business
  - Promote growth investment and business identification
  - Evaluation with awareness of corporate philosophy, growth potential, business profitability, and return on capital
- 2 **Build a business model for future growth and invest management resources in a focused manner**
  - Aggressive investment in wireless and telecommunications/microdevice business and creation of a business model utilizing digital technology
- 3 **Reduce management risk by further strengthening the management base**
  - Respect human rights, develop business with consideration for environmental impact, attract and develop diverse human resources, promote their activities, and build a responsible supply chain.
  - Improve effectiveness of corporate governance

#### Progress in the first year (FY2024) and future direction

- 1
  - Wireless and telecommunications business will accelerate structural reforms as operating income fell short of the plan. Microdevices business was affected by delayed market recovery, but will improve by strengthening sales and other measures.
  - We have made focused investments in growth businesses and evaluation of non-core areas. Going forward, we will optimize our business portfolio.
- 2
  - In FY2024, the company steadily implemented investments in the wireless and telecommunications/microdevices business.
  - Examine R&D that can create business models with wireless as core technology. Establish a new research structure that will promote business expansion through enhanced competitive advantage and innovation.
- 3
  - In FY2024, each measure was promoted and progress was generally made as planned.
  - Expand initiatives in the environmental, social, and governance areas to sustainably enhance corporate value.

#### Cash Flow Allocation and Financial Strategy

- Active investment in focus areas**
  - Continue to focus on wireless and communications /microdevice business (aiming for 70% investment ratio).
  - In particular, the company will aggressively invest in growth, including M&A, which will contribute to building a foundation, monetizing and expanding the scale of its wireless and communications businesses and improving the profitability of its microdevices business. (Secure investment of ¥40 billion in total for the period of Midterm Corporate Strategy 2026)
- shareholder return**
  - There is no change in the policy of aiming for a dividend payout ratio of 40% with a minimum annual dividend of ¥36 per share.
  - While prioritizing investment for growth, the company will also flexibly implement share buybacks.

**Accelerate portfolio reform and growth investments to achieve 2026 goals**

# Results for FY2024 and Progress of Medium-Term Strategy

1. Overview of the financial results for FY2024
2. Progress of the Medium-Term Management Plan 2026 (Year 1, FY2024)
- 3. Outlook for FY2025 and business direction**
4. Strategy for the wireless and communications business
5. New R&D structure

Reference materials

The background features a complex network diagram with nodes and connecting lines, overlaid with large, flowing, wavy shapes in shades of blue and purple. The nodes are represented by small circles, some solid and some hollow, connected by thin lines. The wavy shapes create a sense of movement and depth, with the purple shape being more prominent on the right side.

### 3. Outlook for FY2025 and business direction

#### Outlook for FY2025

(mil. yen)				
	FY2024	FY2025 FC	Change	rate
Net sales	494,746	506,000	+11,254	+2.3%
Operating income	16,581	19,700	+3,119	+18.8%
Ordinary income	24,403	21,600	-2,803	▲11.5%
Net income Attributable to Owners of Parent	10,277	18,300	+8,023	+78.1%

Assumed exchange rate: US\$1 = ¥145

Exchange sensitivity: : A depreciation of 1 yen against the U.S. dollar will have a positive impact of 250 million yen on operating income (favoring the weaker yen)

- Expecting to see an increase in both sales and profits thanks to growth in our core wireless and communications business and the return to profitability of our microdevices business.

### 3. Outlook for FY2025 and business direction

#### Outlook for FY2025

		(mil. yen)			
		FY2024	FY2025 FC	Change	
					rate
Wireless comms	Net Sales	234,515	242,000	7,485	+3.2%
	OP	7,577	10,000	2,423	+32.0%
Micro devices	Net Sales	64,225	72,000	7,775	+12.1%
	OP	-7,093	500	7,593	-
Materials	Net Sales	160,231	162,000	1,769	+1.1%
	OP	4,822	5,300	478	+9.9%
Brakes	Net Sales	58,188	58,000	-188	▲0.3%
	OP	2,333	2,000	-333	▲14.3%
Precision instruments	Net Sales	54,161	53,000	-1,161	▲2.1%
	OP	1,641	1,600	-41	▲2.5%

	OP	655	1,300	645	+98.5%
Textiles	Net Sales	36,842	37,000	158	+0.4%
	OP	193	400	207	+107.3%
Real estate	Net Sales	23,539	17,000	-6,539	▲27.8%
	OP	17,694	10,800	-6,894	▲39.0%
Others	Net Sales	12,232	13,000	768	+6.3%
	OP	-6,421	-6,900	-479	-
Total	Net Sales	494,746	506,000	11,254	+2.3%
	OP	16,581	19,700	3,119	+18.8%

➤ **Wireless and communications :**  
Due to the increasing severity of disasters, there is a growing demand for water management budgets and disaster prevention information systems, etc., and we expect to see an increase in orders for solutions and special equipment, etc., leading to an increase in both sales and profits.

➤ **Microdevices :**  
In addition to cost reduction efforts, we expect to return to profitability due to market recovery from the second half of the year.

### 3. Business Outlook and Business Direction for FY2025

2025 Policy: "Accelerate transformation and promote structural reforms."  
= Ensure profitability + Promote creation of new business models

#### (Short-term promotion)

##### Promotion of selection, concentration and structural reform

- Implemented structural reform of wireless and telecommunications business
- Fundamental review of the business portfolio of the Microdevices business
- Material Business Policy Decision

#### (Medium- to long-term initiatives)

##### Ensuring Profitability

##### Growth measures for the core wireless and communications business

- Execution of strategies for public and private demand business in the wireless and communications business
- Expansion of EMS (Electronics Manufacturing Service) business

##### Creation of new business models

- Start of New R&D Structure
- Enhancing Software Technology
- Strengthen new business models, M&A

This document outlines the strategy for the core [wireless and communications business](#) and  
Report on the status of consideration of changes to the [R&D structure](#)

- Details of the plan will be announced in due course.

# Results for FY2024 and Progress of Medium-Term Strategy

1. Overview of the financial results for FY2024
2. Progress of the Medium-Term Management Plan 2026 (Year 1, FY2024)
3. Outlook for FY2025 and business direction
- 4. Strategy for the wireless and communications business**
5. New R&D structure

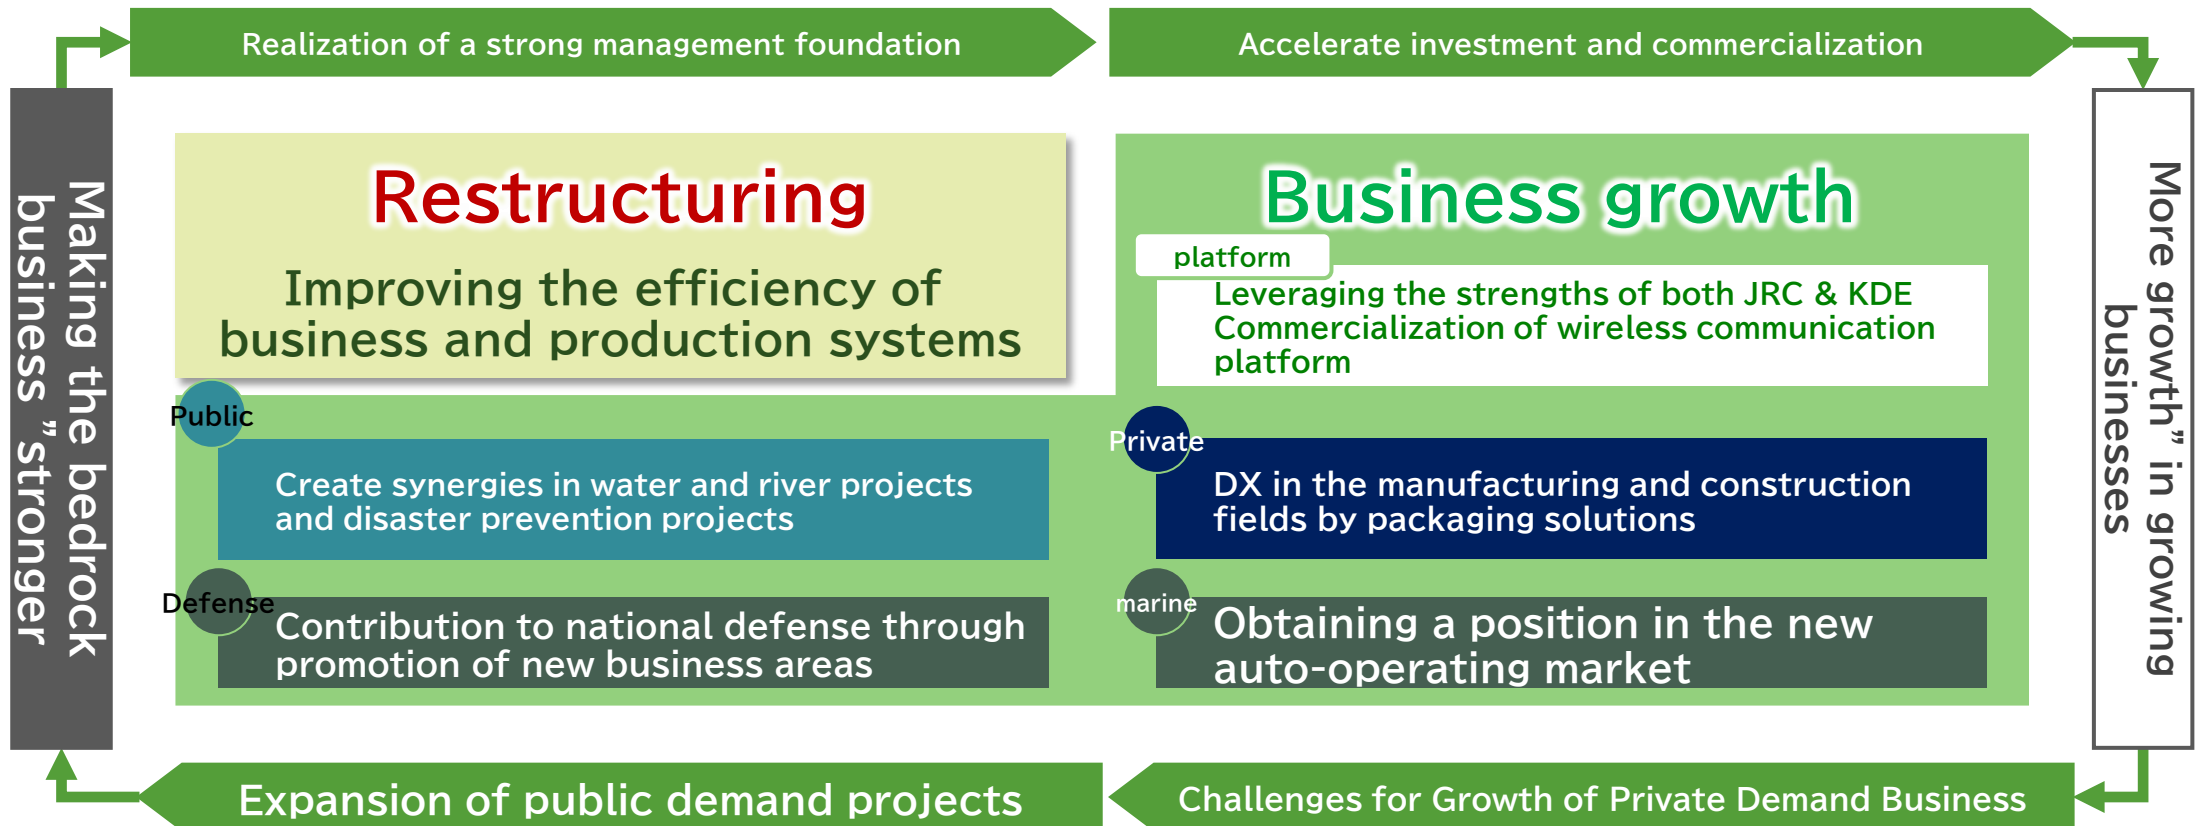

Reference materials

The background features a complex, abstract graphic. It consists of several overlapping, wavy, translucent bands in shades of blue and purple. Superimposed on these bands is a network of small, semi-transparent dots connected by thin, light-colored lines, creating a sense of connectivity and data flow. The overall aesthetic is modern and technological.

# Strategies for Wireless and Communications Businesses

- After the acquisition of Kokusai Electric as a subsidiary on December 27, 2023, the strategy for the wireless and telecommunications segment will be discussed among the operating companies, including the Japan Radio Group and JRC Mobility.
- To "strengthen" the public demand business as a bedrock business and "expand" the private demand business as a growth business Promote **structural reforms** and initiatives for **business** growth

# Strategies for Wireless and Communications Businesses

## Initiatives to achieve profitability through structural reforms

- Japan Radio Group's Sanctuary-Free Structural Reforms - Using Kokusai Denki Electric as a Leading Example
  - ① Simplification of business structure
  - ② Simplification of production system

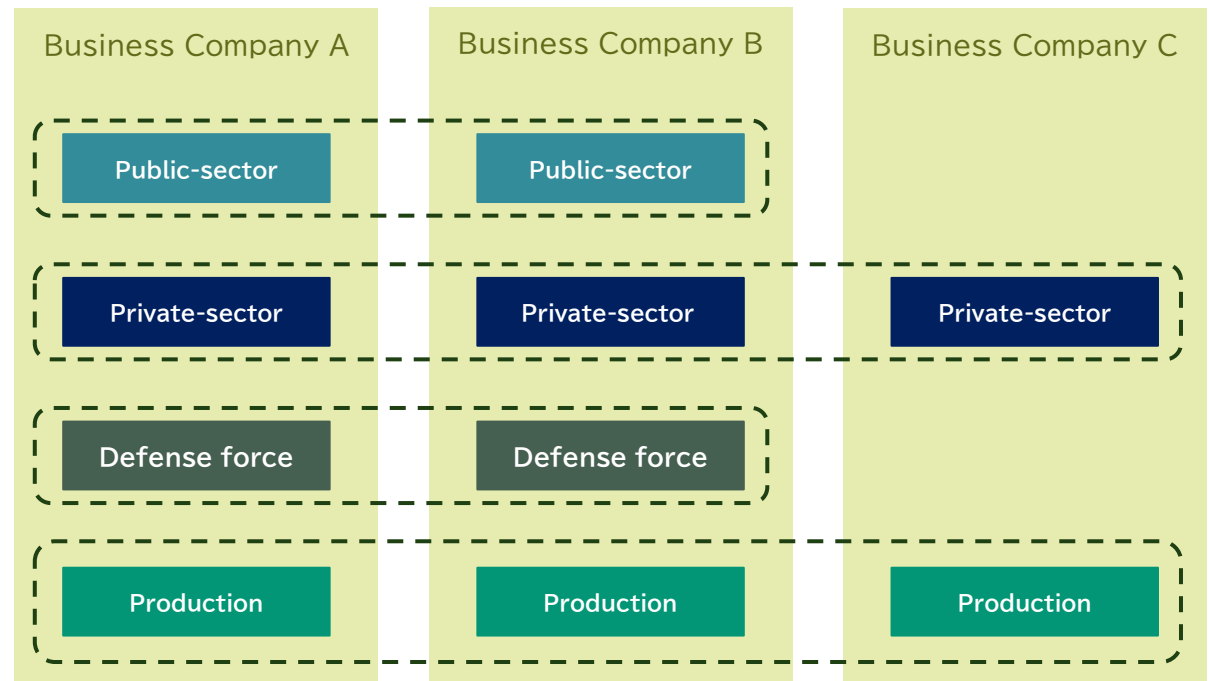

### (1) Simplification/reorganization of business structure

- Integrated management of each company's related businesses
  - Integrate highly related businesses to reduce duplicated operations, enhance intra-group synergies, and expand sales opportunities.

### (2) Simplification/reorganization of production system

- Integrated management of each company's production and procurement functions
  - Reduced duplicated operations, optimized inventory, and improved production efficiency by integrating production and procurement bases that had not been well coordinated.

### Japan Radio Group companies (\*image)

# Strategies for Wireless and Communications Businesses

## Initiatives to Accelerate Business Growth: Public and Private Demand Business

- Positioning the know-how and track record of "wireless communications" that both companies have provided to customers as a platform for all business operations
- Providing solutions to solve front-line workers' problems based on wireless communications, sensing, and AI.

### Public-sector

#### waterworks

Application of video and AI to flood control management

#### river projects

SRS\*1 for stream maintenance efficiency

#### Disaster Prevention Business

Seamless cooperation between the prefecture and municipalities

**Estimated Synergies**  
(Cumulative total through ~2026)

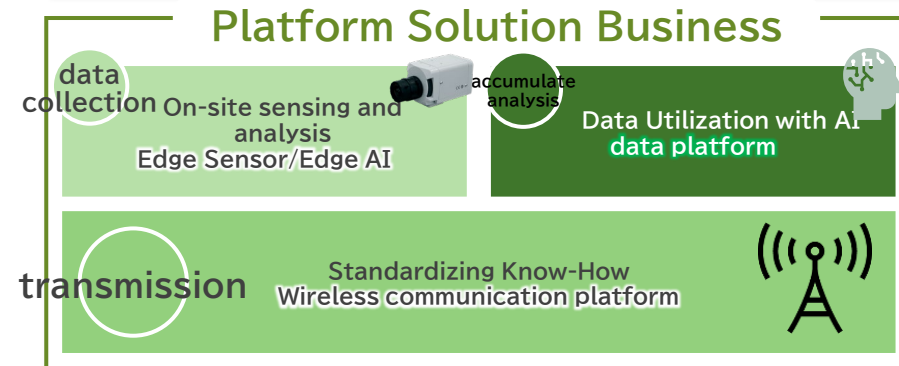

Net sales 4 billion yen

### Know-how & Achievements

### Collaborative Creation with Customers Front Line Worker Solutions

### Private-sector

#### Improved efficiency of manufacturing sites

Smart Factory Business

#### The Challenge of Smart Infrastructure and Workplaces

Preventive maintenance using IoT for equipment and work vehicles at construction sites and work sites + predictive diagnostics based on AI analysis

Realization of CBM\*2 for telecommunication facilities

#### Improved efficiency of train operations

Realization of one-man operation by AI + car-side camera

one-man operation

**Estimated Business Synergies**  
(Cumulative total through ~2026)

Net sales 3 billion yen

# Strategies for Wireless and Communications Businesses

## Initiatives to Accelerate Business Growth: Other Businesses

- Special equipment : Further contribution to national defense by working on new businesses in the electromagnetic wave area and security field
- Marin: "Smart Ship" solution\*<sup>1</sup> to gain a position in the new market for automated voyages

### Defense force

- Growth phase in existing businesses due to expansion of the budget of the Ministry of Defense in response to changes in the security environment
- Further contribution to national defense through initiatives in new business areas, including the urgent need to fundamentally strengthen defense capabilities and respond to new domains (space, cyber, and electromagnetic waves)

#### Existing business

- ❑ radar system
- ❑ communications equipment
- ❑ Avionics (Avionics onboard electronics)
- ❑ Education and Training System

#### New business

- ❑ Business for Electromagnetic Wave Domain
- ❑ Security Field

### Marine

- Leading the world in smart ship solution development  
~Improving operational efficiency, reducing maritime accidents, and protecting the environment

- (1) Advanced automatic flight operation support
- (2) Assistance in determining the optimal route

- Contribution to international standardization of ship-related equipment

International organizations such as ITU\*<sup>2</sup> , IMO \*<sup>3</sup>  
As the chairman of the WG, he leads the introduction of next-generation technologies for ship communications and navigation, as well as standardization recommendations and formulation.

- Details of structural reforms will be announced as decisions are made
- Toward business growth, promote investment and commercialization of public and private demand projects, expand projects and expand ability to solve customer issues

# Results for FY2024 and Progress of Medium-Term Strategy

1. Overview of the financial results for FY2024
2. Progress of the Medium-Term Management Plan 2026 (Year 1, FY2024)
3. Outlook for FY2025 and business direction
4. Strategy for the wireless and communications business
5. **New R&D structure**

Reference materials

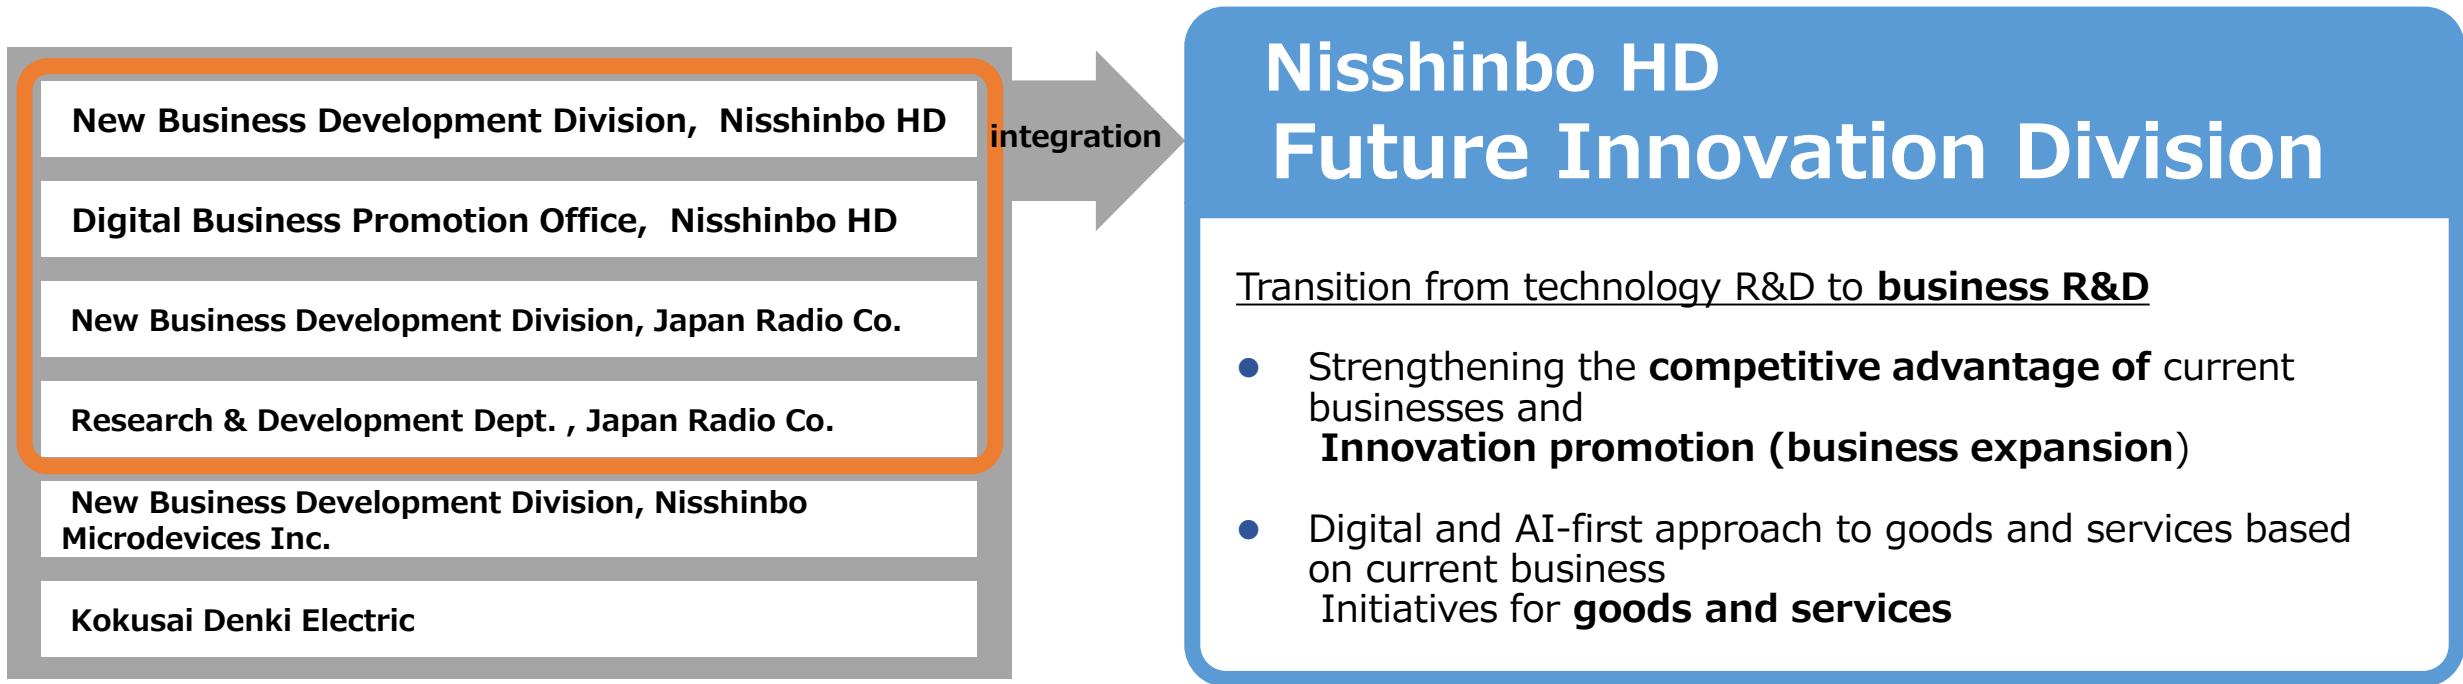

## 5. New R&D structure

New R&D structure aimed at guiding the future of the Nisshinbo Group's operating companies  
(The current research organization will be reorganized and integrated as of April 1, 2025.)

### Current research organizations in the electronics field

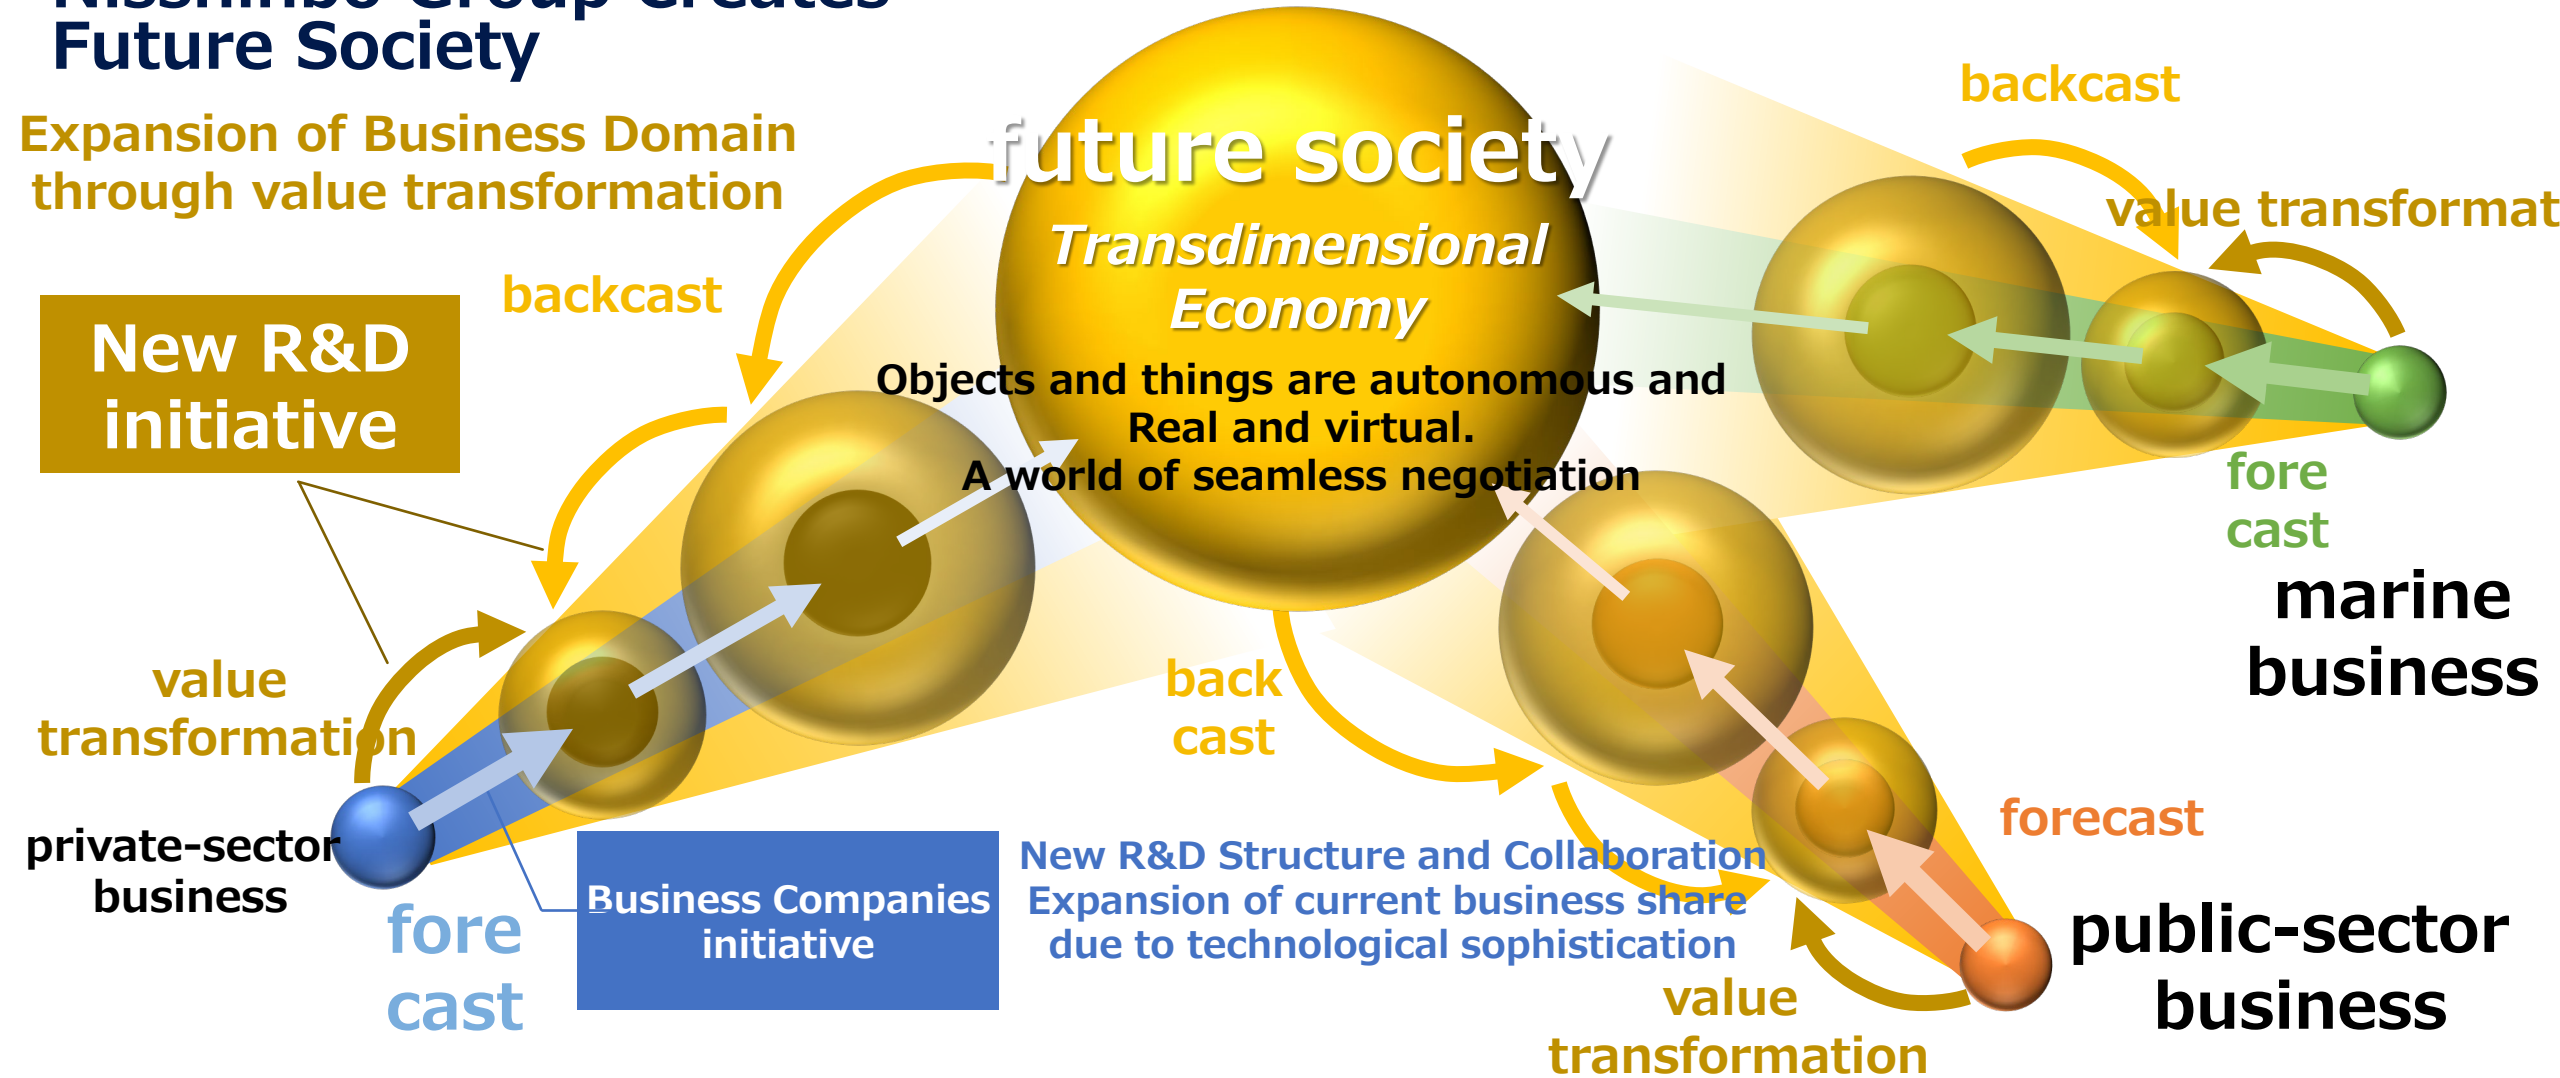

New organization to be established in April 2025 through the consolidation of Nisshinbo HD and Japan Radio Co.  
Examining how Nisshinbo Microdevices and Kokusai Denki Electric will be involved in the future.

## 5. New R&D structure

### Nisshinbo Group Creates Future Society

Expansion of Business Domain through value transformation

《Drawing up the position and strengths of each business in the future society and backcasting》.
